1. PREPARING WRITTEN MATERIAL:

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

2. BASIC NUTRITION AND DIETETICS:

These questions test for knowledge of basic nutrition and dietetics, including such areas as the nutritional value of foods, nutritional needs of the persons being served, balanced diets, and specific foods and their relationship to health.

3. OVERSEEING FOOD SERVICE OPERATIONS:

These questions test your ability to assess the management and performance of food service operations in maintaining standards of quality, sanitation, and service. Questions may cover such topics as food service management practices, large scale food preparation equipment and techniques, sanitation standards for food service premises, holding and serving prepared foods, storing, and handling food products, and sources of food contamination and foodborne illnesses.

4. SUPERVISION AND TRAINING:

These questions test for the knowledge required by a supervisor to set goals, plan and organize work, train workers in how to do their jobs, and direct workers towards meeting established goals. The supervisory questions cover such areas as assigning and reviewing work, evaluating performance, maintaining work quality, motivating employees, increasing efficiency, and dealing with problems that may arise on the job. The training questions cover such areas as determining the necessity for training, selecting appropriate training methods, and evaluating the effectiveness of training.

5. WORKING WITH OFFICE RECORDS:

These questions test your ability to work with office records. The test consists of two or more sets of questions, each set concerning a different problem. Typical record keeping problems might involve the organization or collation of numerical data from several sources; maintaining a record system using running balances; or completion of a table summarizing data using totals, subtotals, averages and percents.
